

You'll never find any of the following ingredients in our meals or on our shelves.

- acesulfame-K (acesulfame potassium)
- acetylated esters of mono- and diglycerides
- aluminum sulfate
- ammonium chloride or sulfate
- artificial colors or flavors (synthetic & Certified FD&C)
- aspartame
- azodicarbonamide
- benzoates
- benzoyl peroxide
- BHA & BHT (butylated hydroxyanisole/hydroxytoluene)
- bleached and/or bromated flour
- brominated vegetable oil (BVO)
- calcium bromate
- calcium disodium EDTA
- calcium peroxide
- calcium propionate
- calcium saccharin
- calcium sorbate
- calcium stearoyl-2-lactylate
- carmine or cochineal extract
- cysteine or l-cysteine
- DATEM (diacetyl tartaric acid esters of mono & diglycerides)
- dimethylpolysiloxane
- dioctyl sodium sulfosuccinate (DSS)
- disodium dihydrogen EDTA
- disodium guanylate (GMP)
- disodium inosinate (IMP)

- ethyl vanillin
- ethylene oxide
- ethoxyquin
- high fructose corn syrup (HFCS)
- hydrolyzed vegetable protein
- liquid smoke or artificial smoke flavor
- methyl silicon
- monosodium glutamate (MSG)
- neotame
- nitrates or nitrites (except naturally occurring)
- partially hydrogenated oils (artificial trans fats)
- polydextrose
- polysorbates
- potassium benzoate
- potassium bisulfite or metabisulfite (sulfites)
- potassium bromate
- potassium hydroxide
- potassium nitrate or nitrite
- potassium sorbate
- propyl gallate
- propyl paraben
- propylene glycol
- saccharine
- sodium aluminum phosphate
- sodium aluminum sulfate
- sodium benzoate
- sodium bisulfite, sulfite, or metabisulfite (sulfites)
- sodium diacetate
- sodium nitrite or nitrate
- sodium propionate

- sodium stearoyl-2-lactylate
- sorbic acid
- soy lecithin
- sucralose
- sucrose polyester
- sulfites
- sulfur dioxide
- TBHQ (tertiary butylhydroquinone)
- tetrasodium EDTA
- trans fats
- vanillin
- vegetable shortening

Please note that this list is subject to change as we're always learning more about what we eat and how it affects our health.
